1. Nature of operations

Camino Minerals Corporation ("Camino" or "the Company") is an exploration stage company that is engaged in the exploration and development of mineral properties. The Company is incorporated in British Columbia, Canada. The address of its registered and head office is Suite 1780, 555 West Hastings Street, Vancouver, BC, Canada, V6B 4N6. The Company is focused on evaluating and acquiring exploration projects with significant potential for advancement from discovery through to production, in Canada and abroad.

These consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and liquidation of liabilities during the normal course of operations for the foreseeable future. There are significant uncertainties related to certain adverse conditions and events that may cast doubt on the validity of this assumption. As at January 31, 2024, the Company had working capital surplus of \$814,844 (July 31, 2023 - deficit of \$76,379) and an accumulated deficit of \$60,699,678 (July 31, 2023 - \$59,274,272). The Company's ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing or maintaining continued support from its shareholders and creditors, and generating profitable operations in the future, which indicate the existence of a material uncertainty that may cast significant doubts about the Company's ability to continue as a going concern. These consolidated financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying financial statements.

2. Basis of presentation

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

These consolidated financial statements were authorized for issue by the Audit Committee of the Company on April 1, 2024.

These consolidated financial statements include the accounts of the Company, and its wholly owned subsidiaries Minquest Peru SAC ("Minquest"), Recursos Mineros Rojo S.A. de C.V. ("RMR"), Camino Resources SAC ("CRM"), and Mining Activities SAC ("MinAc"). All intercompany transactions and balances have been eliminated.

Maria Cecilia

On July 13, 2021, the Company completed an agreement (the "Share Purchase Agreement") with Stellar Investment Holdings LLC ("Stellar"), an affiliate of Denham Capital, to purchase all of the shares of Minera Maria Cecilia Ltd. ("MMC BVI"), a British Virgin Islands company that owns the mineral rights and titles comprising the Maria Cecilia Porphyry and Skarn Complex ("Maria Cecilia") located in Ancash, Peru. Pursuant to the Share Purchase Agreement, Camino also grants to Stellar a contingent payment right in which Camino will pay to Stellar an additional \$0.02 per pound of increase in copper equivalent mineral resources included in any subsequent NI 43-101 technical report on Maria Cecilia. Camino may elect to settle the payment obligation, in its sole discretion, by either paying cash or issuing common shares at a price per share equal to the greater of (i) the 10-day volume-weighted average price of Camino's common shares on the TSX Venture Exchange immediately prior to the date of public disclosure of the relevant mineral resource, or (ii) the maximum discount to market price permitted by the TSX Venture Exchange. The contingent payment right is subject to a cap of \$5,361,380 and will terminate at such time as that cap is reached. The Maria Cecilia claims are subject to a 1.5% Net Smelter Return ("NSR") royalty.

Los Chapitos, Peru

On July 19, 2016, the Company entered into an option agreement with Minas Andinas SA, pursuant to which it could acquire a 100% interest in the Los Chapitos copper, gold and silver project (the "Project") located in the Department of Arequipa, Peru. Under the terms of that option agreement, the Company earned a 100% interest in the Project, subject to a 1.5% NSR royalty.

The 1.5% NSR is payable up to a maximum of US\$10 million indexed with inflation. The Company retains the right of first offer to purchase the NSR. Advance royalty payments of US\$500,000 will also be payable for each 500 million pounds of copper equivalent ("CuEQ") related to any incremental increase in measured and indicated resources. For the purpose of this agreement, CuEQ will be based on the contained pounds of copper, contained ounces of gold and silver, and the LME closing spot prices on the date of release of each applicable resource estimate. The Company has agreed to make annual prepayments to Minas Andinas SA of US\$50,000, for 5 years starting in 2021 (US\$150,000 paid currently), which will be credited against the US\$500,000 in advance royalty payments due.

On June 13, 2023 (the "Effective Date"), the Company entered into an Earn-in Agreement ("Agreement") with Nittetsu Mining Co., Ltd. ("Nittetsu") for its Los Chapitos Project in Peru.

3. Exploration and evaluation properties (continued)

Under the terms of the Agreement, Nittetsu can earn a 35% interest in the Project by making payments and expenditures totaling \$10,100,000 over three years. Proceeds will be applied towards exploration, infill drilling, and metallurgical and engineering studies. After successful completion of the earn-in period, the Project will become a joint venture, whereby Camino will hold a 65% interest, remain operator of the Project, and retain 50% of the production off-take.

Key Terms:

- Payment to Camino of \$100,000 (received in February 2023);
- Nittetsu to pay Camino \$1,000,000 within 5-business days of the Effective Date (received in June 2023); and
- Nittetsu to incur earn-in expenditures of \$9,000,000 (\$3,000,000 received as of January 31, 2024) over a 3-year period to earn a 35% project interest in the Los Chapitos Project with no accruing interest rights.

During the period ended January 31, 2024, the Company received aggregate earn-in advances of \$1,500,000 from Nittetsu. The portion of these funds that were unspent on January 31, 2024 was \$1,074,845 and has been recorded as restricted cash.

Plata Dorada, Peru

On January 22, 2015, the Company completed the acquisition of all of the issued and outstanding share capital of Minquest Peru SAC, a private Peruvian company, the principal asset of which was the Plata Dorada copper, gold, silver property located in the Department of Cuzco, Peru.

Exploration and evaluation expenditures recorded in the consolidated statements of loss and comprehensive loss for the six months ended January 31, 2024 and 2023 are as follows:

4. Share capital

a) Common shares

The Company's articles authorize an unlimited number of common shares without par value and an unlimited number of preferred shares.

A summary of changes in common share capital in the year is as follows:

	Number of	
	shares	Amount
Balance at July 31, 2023	173,330,067	\$ 39,654,219

4. Share capital (continued)

b) Stock options

The Company has a stock option plan (the "Plan") for directors, officers, employees, and consultants. The Plan provides for the issuance of incentive options to acquire up to a total of 10% of the issued and outstanding common shares of the Company. The exercise price of each option shall not be less than the minimum prescribed amount allowed under the TSX. The options can be granted for a maximum term of 5 years with vesting provisions determined by the Company.

The total share-based compensation for the six months ended January 31, 2024 is \$327,983 (2023 - \$nil) and is recognized in profit and loss.

The fair value of stock options granted during the six months ended January 31, 2024 was estimated based on the Black-Scholes option pricing model using a share price of \$0.08, volatility of 124%, risk free interest rate of 3.43%, expected life of 5 years, and expected dividend yield of nil. The weighted average fair value of options granted was \$0.07.

Option pricing models require the input of subjective assumptions including the expected price volatility, and expected option life. Changes in these assumptions could have significant impact on the grant date fair value calculation.

A summary of stock option activity in the period is as follows:

	Number of options	veighted average ise price
Outstanding options, July 31, 2023 Issued	13,525,000 4,950,000	\$ 0.16 0.10
Outstanding options, January 31, 2024	18,475,000	\$ 0.15

5. Financial instruments and risk management

The Company is exposed to the following financial risks:

- i) Market risk
- ii) Credit risk
- iii) Liquidity risk

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

There have been no substantive changes in the Company's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them from previous years unless otherwise stated in the note.

5. Financial instruments and risk management (continued)

General objectives, policies and processes

The Board of Directors has overall responsibility for the determination of the Company's risk management objectives and policies and, whilst retaining ultimate responsibility for them, it has delegated the authority for designing and operating processes that ensure effective implementation of the objectives and policies to the Company's finance function.

The overall objective of the Board and the Company's finance function is to set policies that seek to reduce risk as far as possible without unduly affecting the Company's competitiveness and flexibility and to ensure that risks are properly identified and that the capital base is adequate in relation to those risks. Further details regarding these policies are set out below.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices are comprised of three types of risk: currency risk, interest rate risk, other price risk.

Currency risk

Currency risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will fluctuate because of changes in foreign exchange rates. The Company's share capital as well as the Company's reporting currency is denominated in Canadian Dollars. The Company operates projects in more than one country. As a result, a portion of the Company's cash, accounts receivable, accounts payable and accruals are denominated in U.S. Dollars and Peruvian Soles and are therefore subject to fluctuation in exchange rates. As at January 31, 2024, a 1% change in the exchange rate between the Canadian and U.S. dollar or the Canadian dollar and Peruvian Soles would not be material.

Interest rate risk

Interest rate risk is the risk arising from the effect of changes in prevailing interest rates on the Company's financial instruments. The Company holds no interest-bearing financial liabilities, therefore interest rate risk is limited to potential decreases on the interest rate offered on cash held with its financial institution. The Company considers this risk to be minimal.

Credit risk

Credit risk is the risk of potential loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations. The Company's cash is held with reputable institutions in Canada. The Company is not exposed to any material credit risk. As at January 31, 2024, the Company's maximum exposure to credit risk is \$2,673,438 (July 31, 2023 - \$1,791,239).

Liquidity risk

Liquidity risk is the risk that the Company will not meet its financial obligations as they fall due. The Company monitors its risk by monitoring the maturity dates of its existing debt and other payables.

5. Financial instruments and risk management (continued)

To achieve this objective, the Company regularly monitors working capital positions and updates spending plans as considered necessary. Monthly working capital and expenditure reports are prepared by the Company's finance function and presented to management for review and communication to the Board.

As at January 31, 2024, the Company had a working capital surplus of \$814,844 (July 31, 2023 - deficit of \$76,379). As at January 31, 2024, the Company has long term lease liability of \$nil (July 31, 2023 - \$16,376). The continuing operations of the Company are dependent upon its ability to obtain adequate financing and to commence profitable operations in the future.

Determination of fair value

The consolidated statements of financial position carrying amounts for cash, accounts receivable, and accounts payable and accrued liabilities approximate fair value due to their short-term nature. Due to the use of subjective judgments and uncertainties in the determination of fair values these values should not be interpreted as being realizable in an immediate settlement of the financial instruments.

Capital management

The Company monitors its equity as capital.

The Company's objectives in managing its capital are to maintain a sufficient capital base to support its operations and to meet its short-term obligations and at the same time preserve inventor's confidence and retain the ability to seek out and acquire new projects of merit. The Company is not exposed to any externally imposed capital requirements.

6. Related party transactions

Unless otherwise noted, related party transactions were incurred in the normal course of operations and are measured at the amount established and agreed upon by the related parties. The Company incurred and paid fees to directors and officers for management and professional services as follows:

For the six months ended	Ja	nuary 31, 2024	Ja	nuary 31, 2023
Management and consulting fees Salaries Office and admin fees paid to a corporation controlled by former management	\$	183,000 145,750 25,000	\$	67,500 125,000 31,000
	\$	353,750	\$	223,500

Related party amounts are unsecured, non-interest bearing and due on demand. These transactions are measured by the exchange amount that is the amount agreed upon by the transacting parties and are on terms and conditions similar to non-related parties. As at January 31, 2024, \$34,875 (July 31, 2023 - \$nil) is due to related parties of the Company and is included in accounts payable and accrued liabilities.

7. Right-of-Use Asset/Lease Liability
